NEW TROUBLE IN RUHR AND RHINELAND.

Coblenz, April 6.
That further trouble is brewing in the Ruhr and the Rhineland is indicated by orders issued by General Degoutte. First combined operations have begun throughout the Ruhr and the Rhineland for the purpose of suppressing German secret societies. To date sixty-one arrests have been made and important documents seized.

Protest Against Mines Administration.

A conference of the Imperial Coal Council and the Coal Association have passed a resolution declaring the burdens imposed on the mining industry in the Ruhr by Mieum, otherwise Franco-Belgian mission in control of the mines and factories, intolerable because they have swallowed up the working capital and disturbed the workers.

New Conflict Would be Fatal.

Le Journal reports that M. Poingcarré and the German Ambassador have discussed the agreements of the Ruhr Industrialists with Mieum. It is reported that M. Poingcarré has warned Herr Hoech of the fatal consequences of a fresh conflict, the first of which would be the suspension of all the present working arrangement. He added that the recent utterances of the German Ministers might interfere with the occupied territories participating in the German elections. It was impossible to refuse Germans the right to vote, but the Allied authorities could not permit unrestricted nationalist propaganda.

Further Occupation Denied.

The reported extension of the French occupation to Elberfeld is officially denied. It is added that no such operations will be carried out or are being considered.—*Reuter*.

SOUTHAMPTON DOCK STRIKE.

Southampton, April 6.
The shipbuilding labour dispute has assumed a brighter aspect. The Employees Federation has issued a statement that the conference of executive representatives and the Southampton local committee have arrived at a basis of arrangement in which it is recommended that a mass meeting be held on the 7th when it is hoped it be accepted. It is understood that both sides are hopeful of a settlement early in the coming week. The engineers did not participate in the conference.

Lockout Effecting on the 10th.

The lockout notices posted by the Shipbuilding Employees Federation take effect on the 10th in respect to members of all unions whose Southampton members have not returned to work by the 8th. The Federation statement says this limitation will enable the executive representatives of the various unions to employ the full week-end to bringing the Southampton members into line with what the executives recognise to be the proper procedure. The boilermakers' society whose Southampton members did not strike are not involved in the lockout, but fifteen other unions are affected.—*Reuter*.

INDIA'S GREATEST NEEDS.

Bombay, April 6.
The passengers by the Naldera, which sailed yesterday, included Sir Roderick Jones, the chairman of Reuter's, who is returning to England after completing a seven months' tour of the United States, Canada, Far East and India.

He has been travelling in India for the past six weeks, during which time he was the guest of the Viceroy at the Viceregal Lodge in Delhi for a fortnight. Sir Roderick Jones declined to be interviewed on the Indian situation, saying it was far too complex and delicate for the opinion of a casual traveller to be worth anything. However, he endorsed the statement recently made by Sir Mohamed Shah, member of the Viceroy's Council, that what were most required in India at the present time were, on the one side, patience, and on the other, sympathy and imagination.—*Reuter*.

BRITISH INVENTOR'S DESTRUCTIVE RAYS.

London, April 6.
The British inventor, Grindel Matthews, an expert radiologist, claims he has mastered the method of disabling a motor by means of an invisible ray directed at the magnetos, which was discovered in Germany last year, but hitherto kept a secret. Mr. Matthews yesterday demonstrated his method of stopping a motor fifty feet away. He asserts that the system, when developed, will not only stop aeroplanes but destroy them, will explode powder magazines, and destroy practically anything the rays rest on.—*Reuter*.

BABONIC PLAGUE IN INDIA.

Lahore, April 6.
The epidemic of baboon plague now raging here is the most severe since 1918. It is estimated that the mortality since March 25 has reached a thousand. The epidemic is expected to last another six weeks. The Government is supplying additional medical relief. On account of health conditions the Panjab University examinations have been postponed for a month.—*Reuter*.

INDIAN COTTON MILLS TROUBLE.

Cawnpore, April 6.
Serious trouble has broken out in local cotton mills in connection with the workers' wages bonus question. Mill hands indulged in stone throwing and rowdyism, and the police fired on the crowd, three being killed and 34 injured.—*Reuter*.

breeze and smooth water. Cambridge won the toss and chose the Surrey Station. Oxford, rowing a slightly faster stroke, led at the start, but at the mile post Cambridge were slightly ahead; the time then being 4 mins. 4 secs. The Cantabs were rowing beautifully and held a length advantage at Hammerton Bridge in 5 mins. 36 secs. and three lengths at Chiswick Church, which they reached in 11 mins. 28 secs. Soon after, Oxford sputtered and gained on the leaders, but were rugged in their work. Cambridge reached Barnes Bridge in 15 mins. 31 secs. two lengths and a half ahead, and ultimately won easily by four and a half lengths.—*Reuter*.

The race was rowed in very fast time. The only occasion during the last 20 years when Saturday's time was beaten was in 1911, when Oxford rowed the course in 18 mins. 20 secs., finishing two and three-quarters lengths ahead.—Ed. S. C. M. Post.

PRINCE OF WALES TO TOUR AFRICA.

London, April 6.

An official announcement has been made that the Prince of Wales will tour South Africa. It states that the Prince will leave Southampton on 2nd May aboard the Arundel Castle, arriving in Cape Town on the 19th. He will spend three weeks in Cape Province and will then visit the Orange Free State, Basutoland, Natal, Swaziland, Rhodesia and Bechuanaland, sailing homeward from Cape Town on 1st August.—Reuter.

INTERNATIONAL CHESS TOURNAMENT.

New York, April 6.

In the thirteenth round of the Chess Tournament, Bogolyubow resigned his adjourned game to Doctor Lasker. In the fourteenth round, Bogolyubow, Tartakower and Capablanca defeated Edward Lasker, Marshall and Doctor Lasker respectively, the last-named resigning after fifty moves. Alekhine and Maroczy drew.—Reuter's American Service.

FRENCH PENSION BILL PASSED.

Paris, April 6.

—The Chamber pensions bill has passed in its entirety. M. BOLD BANK BURGLAR.

H. & K. BANK ENTERED.

Shanghai, April 6.—An exciting chase through the premises of the Hongkong and Shanghai Bank early yesterday morning resulted in the capture of a Chinese burglar who obtained entry by cutting out a pane of glass. Watchmen immediately discovered the intruder, who fled, jumping over desks and counters, and diving through a glass door; and eventually plunged through a window and escaped into the street where, after a short chase, he was captured by the police.—Reuter.

SHANGHAI'S BUDGET.

REVENUE HALF OF
HONGKONG'S.

The second half of the Shanghai Municipal report for the year 1923 gives the outgoing Council's estimates of incomes and expenditure for the current year to be submitted at the next meeting of tax-payers next month.

The ordinary income for 1924, including the surplus of Tls. 420,070. Carried forward from 1923, is estimated at Tls. 8,224,720 while the ordinary expenditure is figured to be Tls. 7,929,300, leaving a surplus of almost Tls. 300,000 to be carried forward at the close of the current year.

The extraordinary income for 1924 will amount to Tls. 5,450,200, five millions of which will be raised by the issue of debentures.

The balance includes Tls. 10,000 miscellaneous income and Tls.

440,200 realised by the issue of debentures of the 1923 loan during January and February of this year.

The deficit brought forward is Tls. 712,690, and extraordinary expenditure, including a million-tael loan to the Electricity Department, is recommended, aggregating Tls. 4,746,300, leaving a deficit of Tls. 8,630 to be carried forward to 1925.

Road repairs and buildings to be undertaken this year will absorb Tls. 1,500,000, twice as much as was spent last year; sewerage, Tls. 550,000; bridges, Tls. 153,200; land expenditure will total Tls. 750,000, the appropriation including the cost of constructing a parade ground at the Rifle Range; Tls. 572,900 will be laid out in buildings, including the purchase of the British Jail in Amoy Road from the British Government; and various minor expenditures listed under the captions of Bunding Landings Drainage and Miscellaneous.

Hongkong's revenue for this year is expected to be \$21,369,934, and expenditure \$24,924,657.

SINGAPORE'S TRADE.

FIGURES FOR 1923.

The figures furnished by the Singapore Registrar for 1923 show:

Imports, exclusive of Bullion and Specie, \$576,886,106.

Exports exclusive of Bullion and Specie, \$512,780,902.

The Imports compared with 1922 show an increase of \$120,399,082 representing 26.38 per cent., and the exports an increase of \$97,821,688 or 23.57 per cent.

It may be interesting to note that the volume of trade as represented by these figures is greater than in the years 1921 and 1922 and shows an appreciable increase when compared with the year 1918.

The Harbour Vessel Board returns show that 2,466 vessels used the wharves against 2,251 in 1922.

The net registered tonnage was 6,204,074 against 5,451,433, representing an increase of 13.81 per cent.

General cargo handled at the Wharves inward amounted to 765,314 tons against 748,025 tons,

representing an increase of 2.31 per cent.; and cargo outward 5,247,789 against 4,822,38 tons or an increase of 8.80 per cent.

Coal inward 273,212 tons or a decrease of 39.11 per cent. over 1922, the figures for which were 399,913 tons.

Coal outward shows a decrease of 21.60 per cent., being 313,167

against 399,410 tons in 1922.

This decrease in coal is apparently accounted for by the oil fuel now being used.

Singapore's Trade for last year was accordingly £129,000,000, as compared with Hongkong's £123,000,000.

NAVY YARD POLICE.

LONG SERVICE MEDALS.

An interesting ceremony took place at the Naval Yard on Saturday morning, when half a dozen members of the Royal Naval Yard Police were presented with long service and good conduct medals.

The men paraded before Comptroller Grace, who in time-honoured manner decorated them.

The recipients of the medals were—Sub-Inspector Matthews,

Sergeants George, Marriott, A. D.

Allan, W. Allan and J. Townsend.

All six had at least fifteen years

service each, to their credit, and one of them has nearly 26 years.

HONGKONG RIFLE LEAGUE.

HONGKONG DEFENCE CORPS WIN CHAMPIONSHIP.

By defeating H. M. NOTICE TO CONSIGNEES
DOLLAR STEAMSHIP LINE.

The Steamship "ESTHER DOLLAR" having arrived from New York via ports, on April, 4th, 1924, consignees are hereby notified that their cargo is being landed at their risk into the hazardous Godowns of the Holt's Wharf, a Kowloon, and stored at consignee's risk.

Consignees of cargo must produce an Import Permit signed by the Superintendent of Imports and Exports, Hongkong, before Bills of Lading will be countersigned.

All broken, chafed and damaged cargo is to be left in the Godowns where it will be examined at 10 a.m. on April 10th, 1924, by the Company's Surveyors, Messrs. Carmichael & Clarke.

All claims must be presented within thirty days of the steamer's arrival here, after which they cannot be recognised. No claims will be recognised after the goods have left the godowns, and cargo undelivered on after April, 11th, 1924, will be subject to rent.

No fire insurance whatever will be effected.

Consignees are requested to send in their Bills of Lading for countersignature immediately.

FOOD CANNOT UPSET YOUR STOMACH

If you take two or three little tablets of Bisected Magnesia immoderately after eating when you have pain in your stomach the trouble is due to excessive acid or food fermentation. Bisected Magnesia Tablets neutralise the acid, stop the fermentation, and in five minutes your stomach is doing its work in a painless, normal manner. If you have dyspepsia, gastritis, indigestion, or just a plain everyday pain after eating, go to the nearest chemist and get some Bisected Magnesia Tablets. A large flask costs very little and if you will take you can eat what you like without fear of any following discomfort. Further, it is usually found that the simple taking of Bisected Magnesia adds strength and power to the vital organs. It is urged however that the "Bismag" oval trade-mark sign be soon when purchasing.

LOVE MORE THAN BLIND?

"Blindness Itself," Says French Writer.

It is not enough to say that love is blind; it is blindless itself, a disproportion between the real value of an object and the effort made to possess it. A certain madness is needed for loving. The presence of love is reversed by an unbalanced judgment. This is one of the axioms which M. Emmanuel Berlin lays down in his book, "The Nature of Love," now issued in an English translation (Chapman and Hall). When first published in French it was hailed as a work which showed its author to be a young idealist philosopher of great capacity and promise.

Having adopted the theory that love is egotistical, that all feeling comes from the self and from it alone, he asked how is it possible to explain mutual love? Pure imagination, it seems.

DECEIVED.
"A youth and a maiden deceive one another, for each of them loves only self through another, being that he or she imagines. And they will be undeceived."

"The man finally discovers that what his wife loves is not himself, but a beautiful image, simply nominal and unrelated, to himself."

And the wife, we may suppose, passes through the same mental process. The glamour of love has gone. But so long as love does not in this transformation become aversion it may be transmuted into a very comfortable sort of affection.

The author delves deeply into all the speculations of philosophers and scientists concerning love. The fine passage that follows best expresses his own attitude.

"And so love has a meaning, an object, eternally the same, the love of life for life. To love life in one's self is the basis of all egoistic feeling. To love life in others and in the universe is the basis of all altruistic feeling. The true origin of love is the goodness which seeks to safeguard and intensify the life around oneself."

A HILL STATION?

Would it be within the realms of practicability for Hongkong to have a "hill station," where people could reside for the summer and yet be able to get to business as usual? That thought occurred to us the other day when we were contemplating, the early approach of our hot season. Last year, under missionary auspices, a summer camp was held on Taimoshan, but, unhappily, it suffered badly when the big typhoon struck the Colony. Otherwise, the experiment might have had a great value and later developed into something of the kind we have in mind. Would it not be possible for a real little summer settlement to be established on this mountain, or some such similar spot, where folk could, perhaps, rent bungalows or houses for the summer months, retiring thither after the day's work and spending their week-ends there? Considering the hilly character of the country here, and the rapid advances that are being made in the matter of transportation facilities, it is somewhat of an anomaly that so many of us live down on the low levels. Of course, there are the Peak residents; but they are only a small proportion of the community, after all. A Shanghai man remarked to us the other day that if they only had Hongkong's hills, nearly everybody would live on them. There is something in his viewpoint, surely. In any case, we shall be surprised if, eventually, summer camping does not become really popular here, and as time goes on we may see our hillsides dotted with summer residences.

K.K.K. OUTRAGE.
Sequel to a Celebration.
Lilly, Pennsylvania, April 6.
The greatest indignation has been aroused all over the country by a tragedy last night in connection with the Ku-Klux-Klan celebration, when four men were shot and eleven injured. The Ku-Klux-Klan people came entirely uninvited, and held ceremonies in an open field. Some townsmen played a fire-hose on them as their procession returned to a special train. Shooting followed, and none but townsmen were shot. The train came from Johnstown. Police arrested sixty Ku-Klux-Klan men carrying concealed weapons. —*Reuter's American Service.*

Are People Honest?

How many people whom you pass on the streets are absolutely honest? Four out of five, says the head of a mortgage company in Cleveland, U.S.A., which is raising money for a new tuberculosis sanitarium in Los Angeles. This man picked a thousand names at random from a local directory and to each of those he posted a letter containing a dollar note. The letter read: "You can keep this dollar if you want to, but we hope you won't. We hope you'll send it and another one to me."

VOLUNTEER CLUB SHOOT.

ENGINEER CO'S ANNUAL COMPETITION

The rifle club of the Engineer Co. H. D. C. is to hold its big shoot of the season at Stonewallers next Sunday forenoon. On a previous occasion members met with a disappointment owing to prior allotting of the range, but everything has been satisfactorily arranged this time.

There will be three prizes at each distance (2, 3, 4, 5 and 600 yards) including handicaps, and a fine cup for the best shot (without counting handicaps), besides three special prizes for the two shots. Only members who have paid their subscription will be qualified to enter the competition, and names must be in by next Thursday.

A launch will leave Murray Pier at 8.30 a.m. and Kowloon Pier at 8.35 a.m., sharp.

The game ended with the Surrey's winners by three goals to one. Although the Surrey's finished much the stronger team, and, on the general run of the play deserved their win, sympathy should be extended to Kowloon, who had the misfortune to lose Knight early in the second half when both teams were a goal up. Hart Knight not been injured.

SHIELD FINAL.

SURREY'S WIN AFTER EXTRA TIME.

HY "QUIZ."

In spite of the treacherous weather a good sporting crowd turned out to witness the replay for the Challenge Shield between Kowloon and the East Surreys. The H.K.F.C. stand was crowded and several enthusiasts stood out in the open although rain fell practically throughout the two hours' play. The Chinese were present in great numbers, packing the goal-ends, and cheering on the players, who found the going very heavy and the ground very slippery.

Kowloon won the toss and Wooldridge set the ball in motion. Kowloon were early seen to advantage, and, with a little accuracy in shooting, would probably have won the game in the opening minutes. However, the teams struck to their task and the game was very fast under adverse conditions. Both goalkeepers were called upon to clear, Douglas more frequently than Duncan. The Surrey's goal-keeper found the ball difficult to hold, but he had plenty of time to recover, for the Kowloon forwards after getting their shots failed to follow up to take any advantage of slips made by the goalkeeper. After thirty-five minutes' play, the Surrey's took the lead somewhat unexpectedly. Eaton retrieved the ball just as it was going over the line about twelve yards from the post and lobbed the ball in near the upright, where Duncan was standing ready to clear. Much to the surprise of all present, the goalie turned the ball into his own goal.

Kowloon got well off the mark and Mason forced Cooper to kick behind and McElvnie had a shot at goal which Cooper cleared with a fine header. The interval arrived with the Surrey's leading by a goal to nil.

Resuming, Kowloon took up the attack in earnest and Douglas fumbled a shot from Turner, and, with Hayes close in, the Surrey's goalie threw the ball in front of him and the Kowloon centre levelled up with a well-placed shot. Shortly after this, bad luck for Kowloon happened. Knight, who had been playing a very useful game, came dashing up the field to beat Eaton for possession. The Kowloon back fell heavily after clearing and twisted his knee and was carried off the field. He returned in a few minutes, but could not kick the ball when it came his way, so left the field again. For a time, after this misfortune, Kowloon tried with four forwards, Mason dropping back to assist Wheeler, but the latter resumed his position in the front line and Wheeler took charge of the defence. Needless to say, he had a very busy time with such a dashing forward line against him, but he never tired and was all over the field. He made one mistake when he handled the ball in the penalty area but Duncan brought off a splendid save from Eaton, who took the spot kick amidst great excitement. The Kowloon defence held out and the final whistle sounded with the scores one goal all.

Under the rules governing the Shield Competition, should the scores be equal at the end of ninety minutes play, extra ten minutes each way had to be played. Thus the teams lined up for the extra time and during the first portion the Surrey's won the game, scoring two goals without any response from Kowloon. The first goal followed a series of attacks on the Kowloon goal and was somewhat lucky for the Surrey's as McElvnie got in the way of a shot from Humbertstone and turned the ball well out of the reach of Duncan. The second goal of the extra time was well worked for, and quite the best of the match. Wooldridge received in mid-field, and, taking the ball down twenty yards before he was tackled, pushed it between a couple of defenders. Humbertstone, running in, got his kick in just before Duncan arrived, and the ball rolled into an empty goal. Kowloon tried to pull the game round but found the Surrey's team too good.

The game ended with the Surrey's winners by three goals to one. Although the Surrey's finished much the stronger team, and, on the general run of the play deserved their win, sympathy should be extended to Kowloon, who had the misfortune to lose Knight early in the second half when both teams were a goal up. Hart Knight not been injured.

The result might have been different. Credit is due to all the players for the exhibition given against such adverse condition.

At the close of the game, Mr. James presented the Challenge Shield to Q.M.S. Charlesworth and the runner-up shield to Mr. McElvnie, and the trophy to Mr. James and the team.

FATAL BUS SMASH.

MANY KILLED AND INJURED.

BOY SCOUTS CONCERNED.

Two motor buses belonging to the Chun Hing Motor Bus Co. collided about three o'clock yesterday afternoon on the Castle Peak-Au Tau Road, and the casualties to passengers were the most serious in recent local traffic records.

One bus was coming from Un Loong and the other from Kowloon. It would appear that the former was just leaving a bridge, near Castle Peak, when the Kowloon vehicle attempted to get on to the bridge, with the result that there was a terrible smash, and the body of one of the buses was splintered and collapsed like matchwood, whilst the other had its whole side torn away. Practically every passenger in the two vehicles received injury of some kind, including a party of Chinese Scoutmasters and Boy Scouts on their way to camp.

Two of the passengers—a Chinese girl ten years of age and a Chinese Boy Scout of fourteen—died from fractured skulls on the way to the Kwong Wah Hospital. Those seriously hurt were—A Chinese woman of about 35, who is not expected to live; a Chinese middle-aged woman; a young Chinese man; another Chinese of about 30; a young woman and a young man who were discharged from hospital after treatment; two Chinese boy scouts, aged 12 and 13; brothers of the one who has died, both in a serious condition and one of them not expected to live; and another scout, aged 14, with an injured thigh. The other passengers escaped with cuts and bruises.

Scoutmasters K. C. Kong, C. Y. Yin and Lam Chun, as well as the less seriously hurt scouts set about rendering first aid and helping to have the casualty cases despatched to hospital. Three persons were sent to the Government Civil Hospital after treatment at the Kwong Wah Hospital. Two European motorcyclists who were on the scene at the time of the accident, as well as two Europeans who arrived soon afterwards in a motor-car (Messrs. F. Baker and H. W. Chaney), immediately rendered all aid possible, and Sergeant Stinson of Pingshan Police Station was soon on the scene and ably took charge.

On enquiry at the Government Civil Hospital this afternoon, we were informed that the patients there were making satisfactory progress.

SHANGHAI WOMEN.

TWO ARRESTED IN HONGKONG.

MURDER TRIAL SEQUEL.

Two Shanghai residents, Mrs. Judith Raworth and her daughter, Mrs. Davis, are now in the custody of the Hongkong Police following their arrest in Macao where they had stayed since the recent sensational trial in Shanghai in which Mrs. Raworth was acquitted on a charge of attempted murder.

The rearrest of the prisoners came as a sequel to certain alleged disclosures which had previously resulted in the arrest of Mr. Goulbourn, an accountant, on a charge of committing perjury at the trial and on a second charge of conspiring with Cecilia Sequeira, a Portuguese subject, and others not in custody, to defeat the ends of justice by keeping back a material witness in hiding and from appearing at the trial of Mrs. Raworth.

On enquires this morning, it was learned that the prisoners will be returned to Shanghai, where further proceedings in the case will be heard at H.B.M.'s Supreme Court.

the result might have been different. Credit is due to all the players for the exhibition given against such adverse condition.

At the close of the game, Mr. James presented the Challenge Shield to Q.M.S. Charlesworth and the runner-up shield to Mr. McElvnie, and the trophy to Mr. James and the team.

SIR JAMES BARRIE'S SCHOOLDAYS.**His Witty Review of Education.**

Sir James Barrie made one of his rare appearances as a public speaker by visiting Wallasey Town Hall the other day to address the scholars of the Wallasey High School for Girls, a secondary school conducted by the Corporation, and to distribute prizes to the girls. The headmistress of the school is Sir James Barrie's niece.

In the course of his address the famous man said:

I understand that every one in my place is expected to say something about his own schooldays. That should not be difficult. But it should be something with a moral. That is more important. I attended a "mixed" school in the South of Scotland, and on an unfortunate day for me the girls took a plebiscite about which boy had the nicest smile. I won—with the result that I lost my smile. I suppose it is still jiggling about somewhere in the void, but it has never come back to me. A tragedy in a nutshell. The moral, the old one—Trusted little boys beware of girls.

"PENNY DREADFULS."

Here is something of a still darker character. In those tender days I used, when in funds, to devour secretly penny dreadfuls—magazines containing exclusively sanguinary matter. They were largely tales about heroic highwaymen and piracy on the high seas, but what most enamoured me were the stories of goings-on at English boarding schools. How different from the humdrum of my school! The masters were sneaks and the boys blew them up with gunpowder. I felt that those were the schools for me. My mind became so set on explosions that when a Sassenach sent me a box containing mysterious little red and blue tubes, I placed them one by one near the fire and then darted back, in confidence that they would go off. I daresay I wept when I discovered that they were only coloured chalks. Soon came the awakening—and with it the moral, stalking toward me like two little policemen. In the pages of a very different sort of juvenile periodical, called *Chatterbox*—a word that makes me quake and look behind me still—I read an article on the dire future in store for those who read penny dreadfuls. I tried to stand up to it but no, no, not when black night fell. On such a night—the better for my fearful deed—I stole off to a distant field; my pockets stuffed with back numbers, a shovel concealed up my little waistcoat—and deep in the bowels of the earth I buried the evidence of guilt. If you would know how I felt for days afterwards I refer you to the similar story of Jonas Chuzzlewit.

AN "R. L. S." STORY.

Many years afterwards Robert Stevenson, writing to me from Samoa of visit he had lately paid to Sydney, described how he had gone into a bookseller's shop where they showed him all the newest and choicest books. But he said to them, "I want no thoughtful works to-day; show me 'Sixteen String Jack the Footpad,' or 'Black Bill the Buccaneer.' If I had preserved that copy of *Chatterbox* I should certainly have sent it to Mr. Stevenson.

I noticed that after the war it was a common thing for distinguished generals to re-visit

REASON ENOUGH:

BY BERTON BRALEY.

Impulsive and capricious,
With moods you cannot guess,
But whimsical, delicious;
In her capriciousness;
You ask her why she's flouting
All logic, rules and laws,
She answers, pertly pouting,
"Just because!"

One moment she's all laughter,
An imp on flying feet,
An then the moment after
She's shy, domino and sweet;
She's changeful as a season,
Of sun and snow and thaws,
With this her only reason,
"Just because!"

She'll lead the man she marries
A very hectic life,
With all the swift vagaries
With which her ways are rife.
One can't be certain of her,
She's full of faults and flaws,
And yet—and yet I love her,
"Just because!"

THE "HEUNGSHAN."**ENQUIRY ON WEDNESDAY.**

The stranding of the river steamer *Heungshan* will be the subject of an enquiry at the Harbour Office on Wednesday.

The following are to be members of the Court:—Lieut.-Commdr. Conway-Hako, Lieut.-Commdr. F. J. H. Dawson, Capt. W. Davison, Capt. P. Going and Capt. J. H. Woolacott.

their old schools—nearly always famous public schools—and to say, amid general rejoicings, that they had always sat at the bottom of their forms. Well, if I was like that, at least I shall never boast about it. If I was an idler I am very sorry for it now, as some day you will be if you are in the same case. Even the generals might have been still more wonderful in the war if they had worked at school. Another handy moral—Not to work is to miss the best of the fun.

ENGLISH PUBLIC SCHOOLS.

Your great English public schools! I never feel myself a foreigner in England except when trying to understand them. I have a great affection for one at least of them, but they will bewilder me to the end: I am like a dog looking up wistfully at its owner wondering what that noble face means, or if it does have a meaning. To look at these schools are among the fairest things in England: they draw from their sons a devotion that is deeper, more lasting than almost any other love, and I well know that among their masters are more than whom there are no finer in this country. Those schools must be great and yet I don't quite see how it comes about. Of course, they send yearly on their way a few good scholars and not so few eminent in the games that we love in this land and are right in loving, but the other, four-fifths or so, what do they get from their famous schools? The generals and other illustrious old boys answer that question triumphantly at the school festivities we have been speaking of, but leave the outsider still benighted. It is not scholarship—pooh!—it is not even physical prowess: it is not an awakened soul nor any exclusive manliness nor even a superior way of wearing waistcoats. They describe it briefly and unanswerably as a something, and perhaps wisely leave it at that, putting us in our place for ever, and satisfying the youth still at school who may have been worrying a little on the subject. This mysterious something is got with no effort. You just become enrolled a member of that school, and gradually you acquire the something. So far as I can understand it oozes out of the historic old walls and penetrates through your clothes. Never it is said were there so many applications as now to get sons into those houses, never have parents made mightier sacrifices for this great end. Everybody is after the something: will the old walls that provide it hold out? Let us hope so—but life is becoming more strenuous. Somebody somewhere, somehow, will some day have to submit a picce of that something for scientific examination.

EAST RIVER FRONT.**NO FIGHTING YET.**

Now, from Canton states that although the proposed general attack on the East River front has repeatedly been announced as impending, and large forces of Yunnanese and Hunanese troops have been detached thither, fighting has not yet actually commenced. Some of the commanders have returned, demanding funds with which to meet the daily expenses of their forces.

A report from Shoklung says, that a body of Yunnanese troops in the vicinity of that place has gone over to General Chan King-ming.

An important meeting amongst high military and civil officers has recently been held at the Generalsissimo's headquarters, when important military and financial matters were discussed. The meeting was strictly private and the building was guarded by troops.

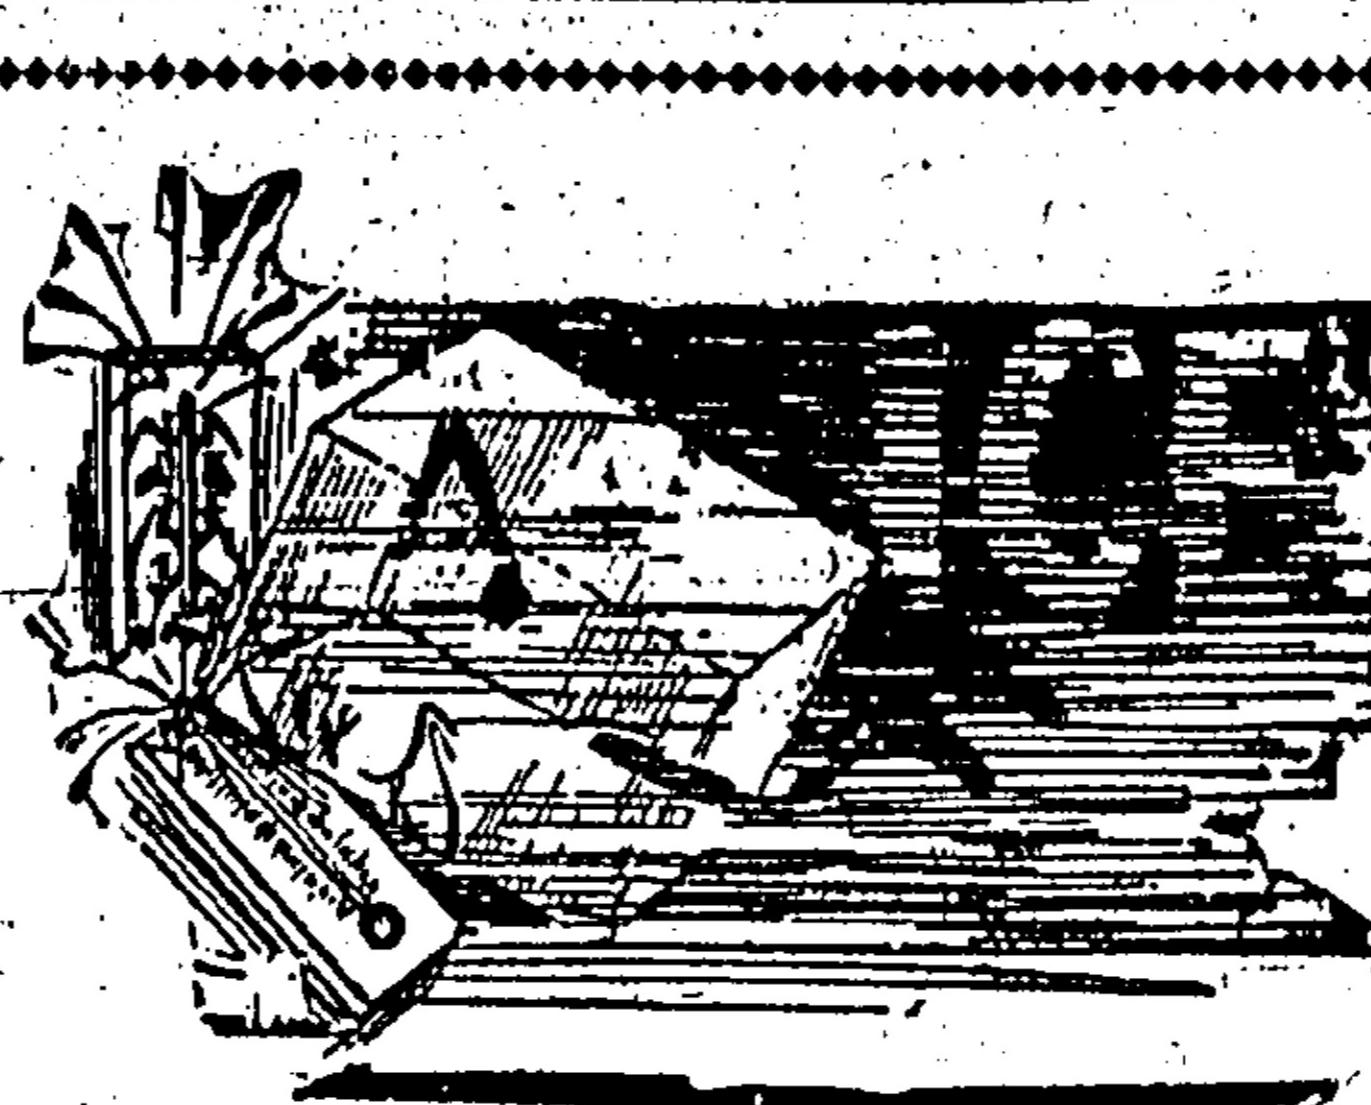

ANOTHER SHIP PIRATED.**OFFICERS WOUNDED AND GUARDS KILLED.**

News has been received of the piracy of a Chinese vessel, flying the Portuguese flag, soon after its leaving Kau-kong on Thursday night. The vessel concerned is the *Seixal* (Chinese name, "Sai Sha") and it is reported that the master, Capt. Asia, and the engineer were wounded, whilst three out of six Indian guards and a Chinese passenger were killed.

The *Seixal* was on the Canton-Wuchow run and was about ten miles out of Kau-kong, near midnight of April 3rd, when some thirty pirates captured the ship after a short fight, the captain being shot in the head, but not seriously.

According to our Canton correspondent, the pirates' haul of cargo, spacio, and passengers' belongings is estimated at over \$100,000 in value, whilst about fifty passengers and six members of the compradore's staff are being held to ransom.

The authorities have despatched armed launches to search for the desperadoes.
